

Memorandum

Date : August 31, 2009

To : ALL CALIFORNIA STATE PRISON – SOLANO STAFF

Subject: **RELEASE OF HEALTH INFORMATION**

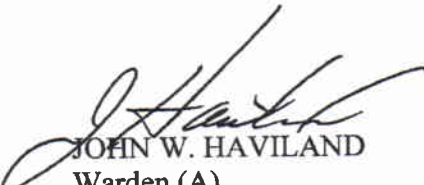

Effective September 1, 2009, California State Prison – Solano (SOL) will be implementing a new procedure to provide patient-inmates the ability to assign authorization to receive health care information to a family member or other person.

Family and friends inquiring about significant changes in a patient-inmate's health care status will now be required to call SOL's Release of Information (ROI) Access line at (707)-454-3497. The ROI Access Line shall contain a prerecorded message advising the caller as to the purpose of the designated line and information required to receive health care information. The messages from the ROI Access Line will be retrieved and logged at a minimum of once per day by the Administrative Assistant to the Health Care Manager.

Patient-inmates can designate only one family member or friend to receive information regarding their health care status by completing CDCR Form 7385, Authorization for Release of Health Care Information.

TROY BRIMHALL
Health Care Manager (A)
California State Prison – Solano

JOHN W. HAVILAND
